

HTST

High Security Gate

Interior & Exterior Application

Our heavy duty security panic gates are designed for both security and safety, and are manufactured to be the strongest link in your secure fence line.

Gates come pre-assembled and ready for quick, easy installation.

Made from 3" x 3" 11-gauge steel, these gates are built to withstand many years of industrial abuse in outdoor or indoor environments, and are guaranteed to be "sag proof".

Our gates are going to be the most secure portion of your fence line. Only select personnel can gain entry. Our gates are tamperproof, excluding torch, high powered rescue saws, or explosives.

APPLICATION:

The HTST is crucial for high security areas. In an emergency you such as: gas/power/chemical plants, can not afford to just refineries, pipelines, correctional hope for the best, but you institutions, schools, stairwells, can afford to have the hallways, storage areas, coast best. Safety is guaranteed. guard requirements and more.
