Swing Gate SG400 Stainless

Mid-Range Value • Rectangular design • One way swing • Fixed ADA size

SwingGate SG400
(36" ADA opening)

Applications:

Handicap gates provide authorized access for easy entry and/or exit. They restrict traffic, provide handicap accessibility, and are frequently used as an access point for hand trucks, carts, and deliveries. Popular applications also include retail stores, schools, libraries, cafeterias, and health club facilities where inexpensive reliable security is required. Our SwingGates are designed to be paired with our matching turnstile models and can be configured to offer different levels of functionality based upon your needs and budget.

The SG400 is our mid-range priced, rectangular picket style, self-closing gate. The stainless steel frame is strong, durable and built for long lasting reliable performance. Includes a matching stop post, strike plate and floor flanges. The SG400 has a self-closing heavy-duty hinge with adjustable closer and full size 36" clear ADA opening for handicap access and a one-way 90 degree swing.

Available options include; an electric magnetic strike lock (integrates with access control systems), and push-button activation (momentary or timer).

Post & Rail Option

Custom sized widths fill any open space.

About Hayward Turnstiles:

Hayward Turnstiles has over 50 years of expertise in quality manufacturing of precision aircraft parts and reliable turnstiles.

Our factory, in Milford, CT, is AS9100 Certified to aerospace standards resulting in superior turnstiles.
