

# Success Stories

## Customer Case Studies

**Customer:** Dow Bay City Family YMCA  
**Location:** Bay City, Michigan

### Problem to be Solved:

*We needed a secure way to grant access to our members at our entrance, and an easy way for members to exit without impeding the flow of incoming traffic.*

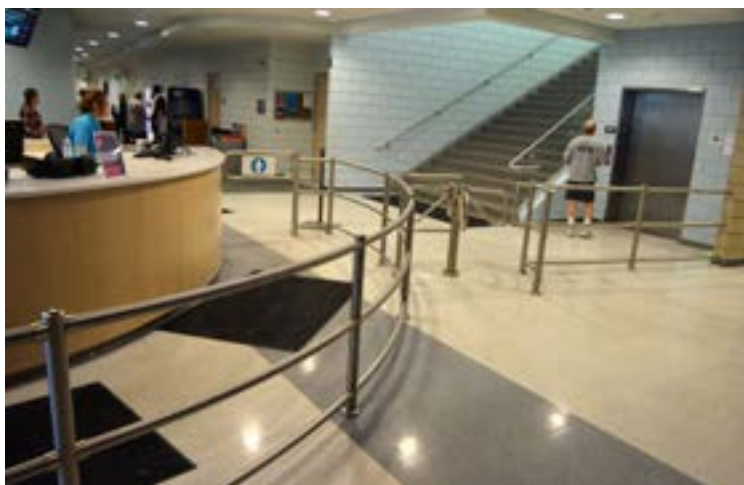

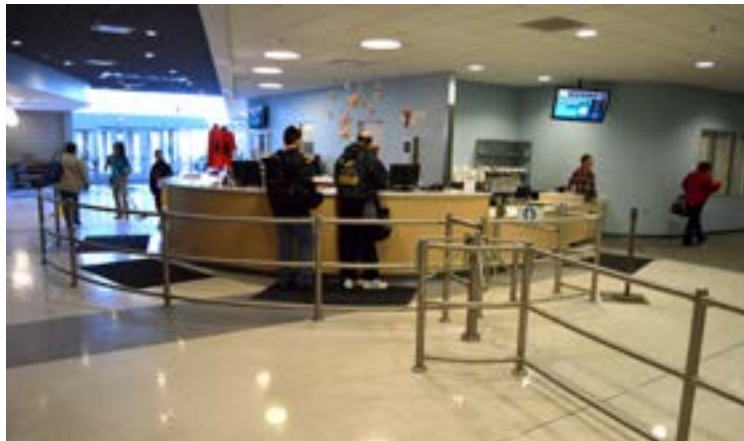

*We also needed to add additional railing to divide the traffic. We decided to replace all of our railing, but wanted to do so without adding any additional holes in our custom floor.*

### Hayward Turnstiles Solution:

*Hayward Turnstiles helped us with the design of the railing to confirm we could reuse all of the same holes in our flooring, and they helped us find the best solution for our traffic pattern.*

### Products Used:

LA-100 Looped Arm Turnstile  
SG-300 Electric One-Way Gate  
Customized Post and Rail

***“Hayward Turnstiles took the time to understand what was important to me, and helped me find the ideal solution!”***
